

Teachers Embracing Digital Disruption

VET-TEDD

Developing Digital Competence in VET

www.vet-tedd.eu

EMBRACING DIGITAL DISRUPTION //

VET (Vocational Education and Training) Teachers Embracing Digital Disruption (VET-TEDD) is a 30 month project, funded by Erasmus Plus. It will provide free to use & accessible resources that support the development of digital competence in Vocational Education Teachers.

VET institutions across Europe face a range of challenges including:

- Enhancing the learning experience of students;
- Strengthening support for teachers;
- Differentiating teaching methods according to students' learning needs;
- Adapting young people's skills to labour market needs.

A woman with long brown hair and glasses, wearing a white blouse and a blue scarf, stands and presents to a group of people seated around a table. She is holding a piece of paper and a pen. The seated individuals are looking towards her. On the table are laptops, water bottles, and papers. In the background, a large screen displays a circular chart with a legend. The chart has segments for Russia, Canada, China, United States, Brazil, and Australia. The legend lists these countries with corresponding colored squares. The background also shows some line graphs and data points.

**LEARN NEW SKILLS THAT
WILL HELP YOU INNOVATE
YOUR TEACHING APPROACH
AND CREATE NEW ENGAGING
LEARNING CONTENT.**

PROJECT OUTPUTS /

The project will develop:

A **Self-Assessment Tool (SAT)** which will analyse skills in identifying, designing, configuring and implementing technological and pedagogical tools.

6 Blended Learning programmes covering; Digital Identity, Security & Data Handling, Alternative Environments, Digital Education Methodologies, Digital Education Models and Media Rich Content.

Best Practice Case Studies showcasing the use of Technology Enhanced Learning and digital pedagogy.

The project aims to **upskill, build capacity** and **develop future solutions** around digital learning tools, to transform educational experiences in VET.

Embrace the digital disruption & find out more at www.vet-tedd.eu

HOW CAN I GET INVOLVED /

1. Transform the way you teach?

One of the biggest challenges when developing new ways of working is having the confidence in your own ability, it's also about understanding your own strengths and capabilities.

Visit www.vet-tedd.eu to register for our self-assessment tool to understand your competence in identifying and implementing digital tools in your learning.

2. Improve your skills?

Read more about our micro learning programmes at our website and gain new knowledge and skills for free! Visit www.vet-tedd.eu

3. Share your best practice

We are sourcing and collating a series of case studies showcasing best practice when it comes to embedding digital tools into learning.

Do you have a case study to share? Contact us at <https://vet-tedd.eu/en/contact/>
